

VIRTUAL SCHOOL COUNSELING TRAINING

MASTERING CLINICAL SKILLS IN A VIRTUAL ENVIRONMENT

Due to COVID-19, school-based behavioral health professionals (guidance counselors, school counselors, social workers, and psychologists) are providing services remotely. But, telemental healthcare poses unique challenges...particularly the ethical, clinical, legal and technical aspects. **The Virtual School Counseling Training covers the essential telemental health competencies.**

After completing this training, school counselors should feel confident in providing the same quality of care virtually as they do face-to-face at school.

Call us to schedule a training for your team! (585) 687-8837
